

The furling spinnaker democratization led us to create this adapter compatible with our furlers KF to turn them into KSF . The captive fast pin allows easy , fast & secured proceedings while spinnaker installation.

Note : Our KSF Top Down furler range includes this tack swivel and is more compact and light

Main characteristics :

V.16.10

Reference	SWL (anti torsion)	SWL (spi)	Material (swivel)	Karver compatibility	Pin to Pin (mm)	Pin \varnothing (mm)	Fork (mm)	Max strop (mm)	Weight (gr)
PF090021	2,5	1	ALUMINUM	KF2	79,55	10	18	8	400
PF080021	5	1,5	ALUMINUM	KF5	93,5	12	19,5	10,5	940

PF030021 [10]	10	6	TITANIUM	KF10	104,5	14	23	12,5	1500
PF030021	12	10	TITANIUM	KF12	129	18	21,6	14	2124
PF030021 [16]	16	12	TITANIUM	KF16	129	20	21	14	2700

- The spinnaker tack is fixed on 2 points despite one for several competitors in order to limit the fast unfurling vibrations
- Compact & light
- Captive fast pin
- The adapter can stay in place on the spinnaker for faster use
- High Load & low friction bearing
- Perfectly compatible with our KF range
